Environmental Life Cycle Analyst

✯ 100% - starting date: as soon as possible

✯ Topic: Food & Agriculture

We are looking for you!

An engaged new team member with skills in life cycle assessment, database and project management that wants to change the world with us. You have a scientific, yet pragmatic working attitude. You enjoy collaborating with clients to deliver the best result within a given time-frame.

Job Description

Your main responsibility will be to calculate the Eaternity Score for food products. You will also assure and improve the quality of our calculation engine and our food LCA database (EDB). This involves collaborating with our IT team that aims to automate data processing and calculations. Further, this involves actively reaching out to scientists and potential data collaborators. Finally, you will also be asked to answer science-related questions to support clients as well as Eaternity marketing & communication.

Are you Interested?

Send your application till latest the 22nd of March to Judith Ellens, jellens@eaternity.ch
The position remains open until a suitable candidate is found.

Your profile

- Experience in carrying out Life Cycle Assessments. Preferably on food products and with at least 2 years of working experience.
- Pragmatic, independent and goal-oriented working style.
- Persistent and structured attitude in dealing with data and working with different tools.
- Experience in collaborating with different stakeholders and/or handling projects with customers.
- A team-player and flexible working attitude.
- Skilled in communicating complex topics in a non-expert language.
- Affinity with technical problem solving
- Willingness to help out in other areas such as sales, customer projects, education, campaigning
- Fluent in English in speech and writing; at least business fluent in German.

Attributes we aspire to find:

✶Proven track-record and passion in the areas of sustainability and food

✶Knowledge of Brightway (and/or Python)

✶Visionary attitude

✶Programming experience

✶Fluent in French

✶Cooking skills ;-) as we enjoy office-cooked meals together

Benefits

✳You will be part of a small, young and skilled team of great people at a **world changing social start-up**.

✳You will collect valuable experience in a start-up team culture and your contribution will make the key difference to Eaternity's success story and the direct **environmental impact** it will have.

✳**Flexible** working environment and freedom to shape your working day

About Eaternity http://www.eaternity.org/about/

Eaternity has the vision to establish climate friendly meals in society. Our experience and strong scientific expertise along with our solid and extensive CO_2-database, forms the backbone of our organization. We are about to expand our work on a larger scale and targeting more people.

We are passionate about changing the world through the intersection of software & LCA and we are looking for exceptional people to join us in that mission. Our approach is to assemble a small, tightly knit collective of extraordinarily talented peers, while pursuing impact and revenue goals typical of larger enterprises. We believe this approach gives individuals greater ownership and input into decisions, and makes for a more efficient and happier workplace.
